D. Y. PATIL TECHNICAL CAMPUS,

FACULTY OF ENGINEERING & FACULTY OF MANAGEMENT, TALSANDE

Department of Computer Science & Engineering (Academic 2026-27)

Weekly Internship Report

Student Name:	Smartha Shesherao Radkar	**Roll No.:**	
Company Name:	Codexlabz Technologies, Atpadi, Sangli	**Place:**	Sangli
Week Duration:	From: 8 June 2026 To: 13 June 2026	**Reporting Week No.:**	1
Company Mentor:	Ganesh Sutar		

Work Summary (Tasks/Activities Performed During the Week):

Sr. No.	Date	Task / Activity Performed
1	8 June	Introduction to Data Analytics, data types, data analysis process and industry applications
2	9 June	Introduction to MS Excel and understanding worksheets, cells, rows, columns and data entry
3	10 June	Practiced Excel formulas and functions such as SUM, AVERAGE, COUNT, MIN, MAX and IF
4	11 June	Worked with sorting, filtering and basic data cleaning techniques in Excel
5	12 June	Created and formatted tables and practiced conditional formatting
6	13 June	Created basic charts and prepared a small Excel-based data analysis report

Weekly Progress Summary (Work completed during this week):

During the first week, I learned the fundamentals of Data Analysis and understood how raw data is collected, cleaned, processed and converted into useful information. I gained practical knowledge of MS Excel, including formulas, functions, sorting, filtering, conditional formatting and charts. I also practiced basic data cleaning and visualization using sample datasets. This week provided a foundation for further learning of SQL, Python and visualization tools.

Weekly Internship Report

Student Name:	Smartha Shesherao Radkar	**Roll No.:**	
Company Name:	Codexlabz Technologies, Atpadi, Sangli	**Place:**	Sangli
Week Duration:	From: 15 June 2026 To: 20 June 2026	**Reporting Week No.:**	2
Company Mentor:	Ganesh Sutar		

Work Summary (Tasks/Activities Performed During the Week):

Sr. No.	Date	Task / Activity Performed
1	15 June	Introduction to databases, DBMS, tables, rows, columns and primary keys
2	16 June	Practiced SQL SELECT statements and filtering using WHERE conditions
3	17 June	Practiced ORDER BY, DISTINCT, LIMIT and different SQL operators
4	18 June	Worked with aggregate functions such as COUNT, SUM, AVG, MIN and MAX
5	19 June	Practiced GROUP BY and HAVING for analyzing grouped data
6	20 June	Performed SQL joins and created queries to extract meaningful information from multiple tables

Weekly Progress Summary (Work completed during this week):

During the second week, I learned how databases are used to store and manage large amounts of data. I practiced SQL queries for data extraction and analysis. I worked with filtering, sorting, aggregate functions, GROUP BY, HAVING and different types of joins. I also analyzed sample business datasets using SQL and learned how analysts retrieve specific information from databases.

Weekly Internship Report

Student Name:	Smartha Shesherao Radkar	**Roll No.:**	
Company Name:	Codexlabz Technologies, Atpadi, Sangli	**Place:**	Sangli
Week Duration:	From: 22 June 2026 To: 28 June 2026	**Reporting Week No.:**	3
Company Mentor:	Ganesh Sutar		

Work Summary (Tasks/Activities Performed During the Week):

Sr. No.	Date	Task / Activity Performed
1	22 June	Introduction to Python programming and its applications in Data Analysis
2	23 June	Practiced Python variables, data types, operators, conditional statements and loops
3	24 June	Worked with Python data structures such as lists, tuples, sets and dictionaries
4	25 June	Introduction to NumPy and performed basic numerical operations on datasets
5	27 June	Used Pandas for creating DataFrames and importing CSV/Excel datasets
6	28 June	Practiced data cleaning using Pandas, including missing values, duplicates and data transformation

Weekly Progress Summary (Work completed during this week):

During the third week, I learned Python programming for Data Analysis. I practiced Python fundamentals and worked with important libraries such as NumPy and Pandas. I learned how to import datasets, create DataFrames, inspect data and perform basic data cleaning and transformation. This week helped me understand how Python can automate and simplify data analysis tasks. (26 June was a non-working day.)

Weekly Internship Report

Student Name:	Smartha Shesherao Radkar	**Roll No.:**	
Company Name:	Codexlabz Technologies, Atpadi, Sangli	**Place:**	Sangli
Week Duration:	From: 30 June 2026 To: 5 July 2026	**Reporting Week No.:**	4
Company Mentor:	Ganesh Sutar		

Work Summary (Tasks/Activities Performed During the Week):

Sr. No.	Date	Task / Activity Performed
1	30 June	Introduction to Exploratory Data Analysis (EDA) and understanding business questions
2	1 July	Practiced descriptive statistics such as mean, median, mode, variance and standard deviation
3	2 July	Identified patterns, trends, outliers and relationships within datasets
4	3 July	Created data visualizations using Python libraries such as Matplotlib and Seaborn
5	4 July	Created bar charts, line charts, histograms, scatter plots and correlation visualizations
6	5 July	Performed EDA on a real-world dataset and documented important findings

Weekly Progress Summary (Work completed during this week):

During the fourth week, I focused on Exploratory Data Analysis and Statistics. I learned how to understand a dataset before building analytical models or dashboards. I calculated descriptive statistics and identified trends, patterns, relationships and outliers. I also created different visualizations using Python to communicate analytical findings effectively.

Weekly Internship Report

Student Name:	Smartha Shesherao Radkar	**Roll No.:**	
Company Name:	Codexlabz Technologies, Atpadi, Sangli	**Place:**	Sangli
Week Duration:	From: 7 July 2026 To: 12 July 2026	**Reporting Week No.:**	5
Company Mentor:	Ganesh Sutar		

Work Summary (Tasks/Activities Performed During the Week):

Sr. No.	Date	Task / Activity Performed
1	7 July	Introduction to Power BI and Business Intelligence concepts
2	8 July	Imported datasets into Power BI and performed data transformation using Power Query
3	9 July	Created relationships between tables and developed basic data models
4	10 July	Created charts, cards, slicers, tables and interactive visualizations
5	11 July	Developed an interactive dashboard based on a real-world business dataset
6	12 July	Presented the final analysis, discussed insights and documented the project findings

Weekly Progress Summary (Work completed during this week):

During the fifth week, I learned Power BI and Business Intelligence concepts and applied the knowledge gained during the previous weeks. I imported and transformed data, created relationships between tables and developed an interactive dashboard. I completed a small Data Analysis project involving data cleaning, SQL/Python analysis, visualization and dashboard creation. The final project helped me understand the complete data analytics workflow from raw data to actionable insights.
